Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	**14**
Course Code:	**CSST101, CSST102**	Term:	1st Semester
Course Title:	**Advance Representation and Reasoning** **Basic Machine Learning**	Academic Year:	2024-2025

Main Tasks Assigned:

Optimize model based on Week 3 results
Improve data augmentation and preprocessing techniques
Continue model training and monitor validation performance

Work Completed: For preprocessing, we cleaned the dataset to remove duplicates and continued training the model.

Challenges Encountered: Duplicate entries in the dataset and excessive loss during training.

Solutions Implemented: We cleaned the dataset to remove duplicates.

Tasks for Next Week: Training the data further and optimized it..
